## SBC wants to be greener

Posted by MerdeCat - 2008/03/12 06:23

---

The Southern Baptist Convention announced yesterday that they haven't taken a green enough approach and they want to emphasize that more now.

This is a pretty major thing since they have millions of members. Do you think members will take it seriously?

Members may not take it that seriously, especially some of the older ones. The rest of the generations wil follow movement if not in the beginning then in time.
