Many of my friends tell me that I am a tree hugger. I really don't hug them, but I do beleive in saving energy.

I admire your efforts to save energy.

As for tree hugging, I usually picture protesters hugging trees trying to save them from being cut down.

But I also heard about someone who hugged them, or leaned against them because she said she was aware of their energy and it helped her well-being when she was experiencing things like a sore back.

Have you ever heard of that?
